WORK EXPERIENCE

Solulab   **Remote**
Blockchain Developer Intern   *July 2024 – November 2024*
- Developed and optimized 10+ Solidity smart contracts, improving contract execution efficiency and reducing gas costs by up to 15%.
- Collaborated with a cross-functional team of 5+ developers and designers to implement decentralized applications (dApps), focusing on scalability, security, and usability.

5irechain   **Remote**
Business Development Executive Intern   *December 2024 – Present*
- Analyzed and identified potential partnerships, securing new collaborations to enhance the 5irechain ecosystem's outreach and adoption.
- Conducted market research and competitive analysis, providing insights that shaped business strategy and increased operational efficiency

PROJECTS

Decentralized Exchange Platform   **September 2024**
- Implemented secure token swaps and liquidity provision, ensuring seamless transactions for end-users..
- Built with Solidity, Uniswap V2, Hardhat, Polygon.

PINft   **July 2023**
- Enabled users to represent verified attributes, like qualifications, personal achievements, and social media profiles within their NFTs.
- Built using: Solidity, ERC-721 Token Standard, IPFS, React, 5irechain.

Decentralized File Storage   **June 2023**
- Integrated Web3 storage solutions for reliable and tamper-proof data storage in a decentralized network.
- Built using: Solidity, ERC-721 Token Standard, IPFS, React, Polygon.
 *Visit GitHub for other projects

ACHIEVEMENTS & CONTRIBUTIONS
- Conducted a college seminar on how to get started in Blockchain.
- Best UI Design in the Hackvengers hackathon for a Web3 game, recognized for innovative and engaging user interface design.
